

Unto the Mouth
From the Brains

Analysis --

Considering all information from the appendages, we wish to inform you and via you the Council, of the following:

The enemy has determined a three pronged attack approach on the Prime Plane

1. The usurpation of the Church of Sytry.
2. The destabilization of the Church of Paranswarm. We determine that efforts to pierce the Church have been made, but actions on the part of the Inquisition have stymied those efforts completely, leading to the decision on the part of the enemy and his councils to destabilize and destroy rather than pierce and infiltrate.
3. The destruction of the military capacity of the Kingdoms of the Light and the Church of Glor'diadel and the absorption of the Church into the Church of Sytry after the populations are no longer trusting of the faith.

It seems likely to us that this is still a long term plan that we are watching unfold, and we believe that we have become an increasing target because we continue to effectively stymie the enemy, which expected Drucien to be the weaker fruit, easier to pick.

Respectfully.
