Hail to the Emperor.

Concerning report 5578968/214/Zenorra/Railwayincident/419 - 425
- 489 - 486 - 77.

As per official hereditary request last renewed 39M225
regarding documents containing keywords cultists - murders -
destruction - sacrifice it is My Duty as bestowed upon me,
albeit indirectly, By the Glorious Emperor On Terra, to convey
to you aforementioned reports as well as to give you a brief
summarization of aforementioned files.

All deceased died a violent death.

From all the cultists those that had an intact sixth cervical
vertebra a tattoo of a stylised eye could be found

An average 9.2 mm under the skin (with a mean divergency of +/-
2.73 mm) a fragment of red crystalloid substance could be
found. Initial survey shows that all (4/31) examined crystals
have identical light refraction, meaning they presumably come
from the same source.

Subjects grew up in different planet systems, various
morphologies were determined, no matched planets as of yet.

First findings show the cultist to wear trinkets and texts of
scriptures commonly worn by the pilgrims to the shrines of
Saint Herandus. To date nothing that would conclusively
identify any of the cultists. Several non-cultists have been
identified. (see document

There are several corpses who died from psychic shock. Others died from a [(censored by order 5788.23)] .

Trooper Kincaid and subject 8956 are at your disposal.

You shall investigate the involvement of cultists.

FOR THE EMPEROR.
