

# MYSTICAL RING OF SPELL LOCKING

This thick silver wrought ring has mystical symbols to lock and aspect of a spell on the subject. The dark ruby will glow with a seal of mystic energy while active.

Effects: While wearing this ring, if you are subjected to a spell that requires concentration you can choose to "lock" the spell in place. A locked spell no longer requires concentration and lasts for its full duration. The effects and parameters of a locked spell cannot be changed while the spell is in effect. A spell can only be locked in this way if you are its only target. The ring can lock one spell at a time, so while a spell on you is locked you are affected as normal by subsequent spells.

This item requires attunement to function for the wearer, it is also an extremely rare item.

The ring comes in three versions. The low version can only lock or grant advantage to spells of levels 1-3. The middle version affects spells of levels 4-6. The high version affects spells of levels 7-9.
