

## **The Sentient's Republic of Saragosa**

### Geography & Politics

The Republic of Saragosa is located in the south west of the United States. It extends for approximately 140,000 sq. km. A low mountain range marks the northern and western borders, while to the East lies the Worm Sea desert. To the South is badder territory. The river Rio Triste cuts the territory neatly in half.

The Republic is mostly inhabited by New Animals, mostly horses, pigs, donkeys, rats and cows. It is ruled by a mutated pig usually just referred to as El Presidente. El Presidente is a staunch Bonparr supporter. In his office he has photograph of himself taken with General Ursal. El Presidente is also the Generalissimo of the Federales, the mounted troops that serve both as Republic's military and law-enforcement.

### Saragosa

Saragosa is the capital of the Republic. With 3000 inhabitants it is the largest city in the region. Interesting sites include the Plaza de Toros, were convicted felons fight in the arena.

### San Carlitto

An old Spanish mission now converted into a Restorationist Chapter House, the party's base.

### Bismark

This is the second largest town in the Republic. It is mostly Altered Humans and enjoys a high degree of autonomy. The Shipbuilder Guild of Bismark control the secret of the Desert Crawlers. These are the only vehicles capable of crossing the corrosive sands Worm Sea desert. As such they have the monopoly over the profitable eastern trade routes and giant worm hunting.

## Southern Star Ranch

This ranch is almost a state within a state. The owner is Major Landon, a pure strain human, commands a small private army. This is tolerated by the government of Saragosa as the Major's men are usually the line of defense against the frequent badder raids.

## Ausburg

Ausburg is small town on the western border of the Republic. Ownership of Ausburg is still disputed between the Republic and the city of Odessa, though the town have not been at war for several years now. The only interesting feature of Ausburg is that it is close to an Ancient's installation the Restorationist have recently discovered (hence the name "Ausburg site").

## The villages

The majority of the Republic's population lives in small villages of 100-300 sentients; places like Corona or Torres.
