### Crescent Turning Rules:

The main change is that, instead of rolling on the level-related chart, you make a turning check equal to

1D20 + CHA + Effective Cleric Level + other bonuses,

which becomes the DC for a WILL save for undead.

The order of effected undead is determined as normal, by HD. Radius is still 30'. Turning resistance applies to the Will save. Failure on the will save results in turning as noted.

[illegible]
