Unto Catherine^{KC} Mistress of the Bed of the Archduke of Canberry and Lady of Shadows
From Malachant^{KC} Queen of the Abyss^{KC} Lady of Pleasures^{KC} Overseer of the Eternal Debauch

It may be of interest to you and to your sycophants to know that the Abomination of Shur has ended^{KC} as all such do^{KC} with his final essence taken captive by members of my Pleasure Guard^{KC} aided by the Ever Unsatisfied as it moved toward the final fastness that it had prepared in the depths of the five hundred and twentieth plane^{KC} who knows what is there^{KC} I don't visit far away^{KC} and has^{KC} at my direction^{KC} been thrust into the depths of the larva pits^{KC} He is cunning^{KC} he will work his way back out^{KC} and become a mighty demon^{KC} after we torment him for a couple of hundred years of course^{KC} but he will only return to the Prime if summoned^{KC} if he becomes embroiled in the Shadow War or if he is far more clever than he proved himself in this last escapade^{KC}

It may be of interest to you as well however that several dozen of his primeest servants are now on the move^{KC} seeking new masters either on this continent or beyond^{KC} That leaves two sets of things that might be maneuvered to the benefit of your dissipated lover and his stalwart and so boring guardswoman^{KC}

Three major figures who have long owed allegiance to the Abomination due strictly to the payscale are now free to do as they will^{KC} Filegust the Claw^{KC} a Rakasta general of considerable power is in the Southlands not far from the new Empresses refugees with his remaining war band^{KC} Thalmount^{KC} a Wizard of great power and a small group of his fellows are holed up in their tower near the coast south of the threes^{KC} Lastly^{KC} but perhaps not leastly^{KC} The Demonist Shill the Unspeakable has retreated to his estate almost directly South East of the Broken Lands near the northern border of the Guard lands^{KC} With Filegast you can deal^{KC} he cares only for money^{KC} With Thalmount you can deal^{KC} he cares only for knowledge^{KC} Neither are moral in any appreciable way^{KC} or immoral^{KC} Both will stay bought by a powerful force if they are paid^{KC} unless that force falls^{KC} Both have something to offer^{KC} Shill I would kill while I could still^{KC} were I your ample love^{KC} Qoooo^{KC} I made a rhyme^{KC}

There are still powerful though disorganized forces near the War Women and the ravaged lands of spice^{KC} Many of those forces^{KC} though they have been ravaged and seen most die^{KC} will turn to either banditry or mercenary work if left alone too long^{KC} On the other hand^{KC} pulled together one might get two or three orgies^{KC} I mean legions out of them^{KC} and they were doughty fighters all and not corrupt as so many of us are^{KC} They might be useful in strengthening the spine of the forces the new empress tries to raise from the tattered remnants of her father's ruined legions^{KC}

Just a thought or two^{KC} perhaps three^{KC} Do with them as you will^{KC}
